

Vladislav Khmelnytsky

Senior Full Stack Developer

✉ hmilvlad5@gmail.com ☎ +380 99 003 1632 📍 Kalush, Ukraine

SUMMARY

Senior Full-Stack Developer with 8+ years of experience building fast, reliable, and scalable web applications. Specialized in the **MERN stack (MongoDB, Express, React, Node.js)** and **Laravel**, with strong expertise in **AI automation, DevOps, and scalable architectures**. Proven ability to design and implement **dashboards, SaaS platforms, APIs, admin panels, and automation tools** with clean code and robust system design.

EXPERIENCE

SoftServe Digital Solutions, Senior Full Stack Developer

03/2022 – 05/2025 | Houston, TX

- Led a team building a **cloud-based healthcare automation platform**.
- Developed frontend (React) & backend (Node.js, MongoDB) solutions.
- Integrated APIs & optimized real-time data with WebSockets.
- Improved scalability and responsiveness for healthcare data systems.

Luxoft Ukraine, Senior Backend Developer

07/2019 – 02/2022 | Kyiv, Ukraine

- Built secure, scalable backend services for a **financial data platform**.
- Optimized PostgreSQL queries and backend performance for massive throughput.
- Deployed and monitored services on AWS for high availability.
- Enhanced **real-time financial data analysis** capabilities.

CodeControl, Backend Developer

03/2016 – 06/2019
Amsterdam, Netherlands

- Developed secure **e-commerce backend solutions**.
- Built a **custom payment gateway** for global retailers (Node.js, MySQL).
- Designed architecture for high-volume transactions.
- Collaborated remotely with cross-functional international teams.

PROJECTS

EDUCATION
